

SEED MONEY

for Small Businesses

NSF AWARDS
\$200 MILLION
PER YEAR IN R&D FUNDING

UP TO \$1.5 MILLION for your company

America's Seed Fund powered by the National Science Foundation (NSF) funds startups in the development of groundbreaking, high-impact, high-risk technology, transforming scientific discovery into products and services with commercial and societal potential. NSF funding goes toward research and development (R&D), helping companies like yours de-risk technology for commercial success.

AND WE'LL BRING YOU FUNDS

We take no equity in your company – you retain full control over your team, the direction of your work, and your intellectual property. NSF does not buy products or services from the companies it funds, nor does it dictate technologies or applications to target. Rather, our hope is that the startups funded by NSF will become commercially successful, and have a positive impact on society.

"Our grant from NSF SBIR really got us going and was further validation that we had a great business idea for STEM education."

- SMITA BAKSHI

CEO and co-founder of Zyante,
an NSF SBIR/STTR funded company

PROJECT PITCH

Submit a three-page
Project Pitch & find out in three
weeks if your project is a good fit!

PHASE I

UP TO \$225,000
A proof-of-concept/feasibility
grant that lasts from 6 to 12
months. Phase I proposals are
evaluated based on the technical
innovation and potential
commercial/societal impact.

**SUBMIT A PROJECT
PITCH ANY TIME**

PHASE II

UP TO \$750,000
A two-year grant that helps
companies commercialize high-
risk technology innovations. A
company must receive a Phase I
grant before applying for a
Phase II grant.

DEADLINES:
Based on Phase I
award expirations

PHASE II B

UP TO \$500,000
NSF may match 50 cents on
every \$1 of qualifying revenues
or third-party investment
(minimum match \$50,000 and
maximum \$500,000)

**America's
